

ONE-PAGE SALES SHEET

Your business deserves intelligent automation.

Ember Bots helps small businesses automate lead response, follow-up, scheduling, customer communication, onboarding, and back-office work with systems built around the way the business actually runs.

Best fit

- service-based SMBs
- home-services operators
- local businesses with steady inbound leads
- teams losing time to manual follow-up and admin

Where small businesses lose momentum

- leads sit too long before someone responds
- missed calls turn into missed revenue
- scheduling and follow-up happen manually
- customer messages get scattered across channels
- teams re-enter the same information in multiple places
- admin work steals time from sales, service, and growth

What Ember Bots deploys

- Lead Response Automation
- Customer Message Routing
- Scheduling & Reminder Automation
- Client Onboarding Automation
- Follow-Up Automation
- Back Office Admin Automation
- Executive Daily Briefing

What the business gets

 **FASTER**

**Lead response without
adding office overhead**

 **CLEANER**

**More consistent follow-up
and scheduling workflows**

 **ORGANIZED**

**Customer communication
and task routing in one
system**

 **PRACTICAL**

**Less repetitive admin and
more time for conversations,
service, and decisions**

How Ember Bots works

Audit the bottlenecks. Deploy the right automation system. Tailor it to the business. Then manage and improve it over time so the system keeps creating value.
